EDITOR of 900 pages text book called “**MEDICINE UPDATE BOOK 2013**” containing nearly 200 articles on various subjects, “**ADULT IMMUNIZATION 2014**” and Direct Talk News Letter. He delivered many national and state orations and web Cast, Online CMEs are his contributions. His theme is – “Serve and Care, Search and Share”.

Original work of Dr. A. Muruganathan M.D.,

As a Rural Physician

Dr. A. Muruganathan after his master degree in 1978 chose Tirupur where the medical facilities were in adequate and where “The Industrial booming has led to the ecological doom.

Dr. A. Muruganathan started a multispecialty hospital first of its kind in Tirupur and added to it the latest infrastructure and equipments. With his skill and dedication, the doctor was able to give fresh life to more than 20,000 patients admitted in his hospital with complaints of heart, lungs, CNS and GI diseases.

Poison cases and poisonous bites

With the help of his ICU set up – he could save more than 3000 suicide attempt cases who consumed Organo Phosphorous and other poisons. He is also a consultant for Assumption Hospital which is known for managing Snake bite cases in this area

Scientific Contribution and Original Work

He was a pioneer in this field and identified the common diseases prone to this atmosphere. He had done original work in Lung disease like Byssinosis and Tuberculosis. His special contribution was to control the Double Burden of **TUBERCULOSIS** and **DIABETES**. National IMA chose him as a NWG member in RNTCP and his experience in this field enabled him to deliver a lecture which was published in API Medicine Update 2013. An Asthma club was started on educating the poor labourers. Dr. A. Muruganathan could screen 30000 labourers with the help of lung function machine and X-rays which still he continues. The

Rotary club awarded this as the best project and his hospital was given best hospital award for more than ten times.

He is doing research on Metabolic Syndrome where he screened 10,000 labourers and took anthropometry measurements and blood tests. He has made it a mission in creating awareness to prevent diabetes. He is pioneer on Indian guidelines for ADULT IMMUNIZATION. He has initiated the process of forming Indian Guidelines on various subjects like Insulin, Postmenopausal Osteoporosis, Gestational diabetes and NAFLD. Prof Muruganathan pioneer microbial surveillance of Indian microbe and devised a national strategy for rational use of antibiotics so that abuse as well as cost can be saved. He is one of the authors of **CHENNAI DECLARATION** and lead pioneer of antibiotic stewardship program in India which is routinely now used by all Indian critical care as well as hospitals and nursing homes.

In a resource limited country like India there is a need for low cost; high impact health care solutions to be developed for Indian populace and Dr. A. Murgunathan has done this extensively both for rural and urban poor

All India Level as a National President API

His Activities During the year (2013 – 2014):

AWARD during the annual conference APICON 2014 by API.

ROTARY GOVERNOR

CHIEF ADVISOR – RI DIST – 3202

Trauma Care Concept – It is his brain child. During his Rotary Governorship he introduced the concept of Trauma Care Centers in National High ways to help road accident victims which was adapted by government later. 19 such centers were opened in National High ways to attend the road accident victims during 1999-2000. Centres were inaugurated by Ministers Thiru.Ismail in Kerala and Thiru.N.K.Periyasamy at Tamilnadu. This concept was given further dimension while he was President, IMA, by opening 11 more new Trauma Care centers with the help of the Government and support of private hospitals. He was instrumental for donating 43 ambulances to attend such victims of accidents in National Highways in the presence of – Hon'ble Chief Justice of Kerala Thiru. A.R. Lakshmanan.

As a rotary governor extended help during natural calamities and disasters, encouraging communal harmony, providing electric crematorium facility at three towns, looking into prisoners care, encouraging sports, culture and heritage, a drive for a greener world and **WOMEN HEALTHCARE**. Propagating the concept of **ORGAN DONATION** are some of his other contributions to the society.

During the Rotary Governorship:

- Conducted 62 general medical camps, 32 Diabetic camps, 25 Cancer detection camps, 20 dental camps, 15 Ear camps, 9 Asthma camps and 5 ortho camps. Held 55 Eye camps, 15,448 Eye surgeries were conducted and provided 16,761 glasses.
- Cleanliness and safety water were stressed. Given Hepatitis-B immunization to more than 1 lakh children in 1999-2000.
- Motivated the Clubs and adopted the General Ward of Government Hospital at Ernakulum, and a Primary Health Center at Ooty and provided all the facilities to run the centres effectively
- Launched a project called 'Concern for Women', in which Mal nutrition, infection, antenatal and post natal care and breast feeding were stressed. Separate medical checkup camps and Blood Hemoglobin tests for women were organized.
- With the help of R.V.Cs (Rotary Village Corps) more than 25 medical camps were organized dealing with topics like Health Education, Family planning, Evils of Drugs addiction, Alcohol etc... and provided with treatment, in addition Eye-camps and skin camps were organized in various villages.

Leprosy:

Another field of his concentration is the ancient disease -Leprosy. As he had continuous command on the activities of Rotary by his active participation, he is instrumental for launching a program called: Community Leprosy Eradication Action through Rotary Dignity and Economic Advancement (**CLEAR – IDEA**) and still

continuing in R I District 3202.

In an effort to combat leprosy in India, Rotary clubs in District 3200 (India) have initiated a project called CLEAR (Community Leprosy Eradication Action through Rotary). As a result of this program, patients who suffer from the debilitating effects of this ancient disease receive education, medicine and surgical treatment – not only healing the body, but also making it possible for them to become productive citizens in the community.

In the last 10 years a total number of 3091 children of leprosy affected persons were given educational assistance and vocational training job placements. Nine hundred cured persons were economically rehabilitated by micro credit assistance.
